City to Pay Time and Doctor's Bill For Wounded Negro

Approximately \$125 will be paid out of the city treasury to "Maude" Lee, the negro who was shot several months ago by Policeman Farrell while the officer was exhibiting his gun in a careless manner. Seventy-five dollars of this amount is for time lost, five weeks at \$15 per week, and the other fifty is for doctor's fees. The matter was brought up when Alderman Pierce, of the police committee, recommended that the negro be reimbursed for the time he lost from his work.

Alderman Gay said that if he was to be paid for losing time from his work he should also be paid his doctor's bill, as the city "might have to pay a good deal more." Alderman Johnson, whose firm employs the negro, said that he didn't propose to discuss the matter when it first came up, but that for the information of council he wishes to state that not less than six "reputable attorneys" had been to see him about suing the city for the injury to the negro. City Attorney Dineen interposed the interruption that they could not have been "reputable attorneys" if they had so far violated the ethics of the profession to solicit the suit. City Attorney Dowda also said that the threat that the city could be held liable from a legal standpoint was all rot, and that the only way an appropriation could be made would be as a matter of policy, as there is no provision under the law or city ordinances which makes the city liable for the act of an

employee. After some debate it was voted unanimously to pay the entire bill.

A WONDERFUL HORSE

WELL-WORTH SEEING

Visitors to the county fair who "take in" the carnival portion of the showings, and that means everyone, should not fail to see the wonder horse, "Captain," the property of Captain Sigsbee, brother of the notable Captain Sigsbee, who went to his death on the Maine many years ago. This horse is trained to exhibit the highest traits of intelligence, and it is not done with the crack of the whip. There is a multiplicity of clever stunts done by the animal, and there is a puzzle as to how it was possible to teach a horse as much as is indicated by the performance. Those who visit the fair should by all means see this horse—as well as other performances which are given under this same small canvas.
